Multifold Dry Tech

Certifications and technology

Dry Tech products are created using air. To add comfort, softness and absorption, air flows through the fibers and creates air pockets, increasing the paper's bulk – a process called Through-Air Drying. Dry Tech Multifold hand towels offer increased wet and dry strength, unparalleled softness and added absorbency due to their unique production process.

The image may vary from the original packaging and has the sole purpose of presenting the product

Technical data

Material:	TAD
Color:	White
Embossing:	---
