

DIS  SOLVETECH

THE RAPID DISSOLVING TISSUE.

Reduces the cost
of clogging.

REDUCES THE RISK OF CLOGGING

Every year over 50% of companies experience issues associated with blockages in their waste water systems.

Recent research has shown that the cost of tackling these issues in Europe exceeds 1 billion Euro.

Papernet solves these problems thanks to a technology in a range of products with excellent performance and rapid break down on contact with agitation and water.

RESPECTS THE ENVIRONMENT

BREAKS DOWN IN CONTACT WITH WATER

PERFORMANT LIKE CONVENTIONAL TISSUE

REDUCES COST IN USE

DISSOLVE TECH IS UNIQUE

Dissolve Tech is an exclusive Papernet range which owes its success to years of scientific research and technological innovation.

Dissolve Tech products are soft and strong but when agitated in water, break down effectively.

Dissolve Tech products have been **scientifically tested** by Research Institutes, (such as the *Center Technique du Papier* in Grenoble and the *Lucca Quality Center*).

DISSOLVE TECH IS BETTER

Dissolve Tech towels, when compared with other conventional towels, **demonstrate strong resistance combined with high levels of absorption.**

If disposed of in the WC, **they break down like traditional toilet tissue ensuring no clogs occur.**

The use of paper towels is also recommended by the World Health Organisation and institutions such as the University of Westminster, as single use paper towels result in a considerable reduction in bacterial levels on our hands.

Dissolve Tech toilet papers solve the problems of fillings, since they **pulp in less than six seconds.**

DISSOLVE TECH MEANS SAVINGS

High foot-fall locations like Airports, Hospitals, Schools and Factories protect themselves from the risk of out-of-service washrooms at times with large volumes of users using their facilities.

Users with complex waste water systems such as Airplanes, Trains and shipping can avoid service issues and down-time caused by clogging in extremely hard to reach locations.

Using Dissolve Tech products ensures your budget is focused on washroom consumables and not servicing and maintenance costs.

DISSOLVE TECH IS SUPERIOR

The graph illustrates the relationship between wet resistance and pulp flushing duration, comparing Dissolve Tech to other products that belong to same product family.

Dissolve Tech towels have a strong absorbent capacity but, in contact with the water, they dissolve in less than three minutes.

Comparison of Dissolve Tech and other types of towels thrown in the toilet

THE SOFIDEL GROUP

The Sofidel Group is one of the leading manufacturers of paper for hygienic and domestic use worldwide. Established in 1966, the Group has subsidiaries in 12 countries – Italy, Spain, the UK, France, Belgium, Germany, Sweden, Poland, Hungary, Greece, Romania and the USA – with more than 6,000 employees, net sales of 1,919 million Euros (2019) and a production capacity of over one million tonnes per year (1,308,000 tonnes in 2019). “Regina”, its most well-known brand, is present on almost all the reference markets. Other brands include: Softis, Le Trèfle, Sopalin, Thirst Pockets, KittenSoft, Nalys, Cosynel, Lycke, Nicky, Papernet. A member of the UN Global Compact and the international WWF Climate Savers programme, the Sofidel Group considers sustainability a strategic factor with regards to growth and is committed to reducing its impact on natural capital and maximising social benefits, setting as objective the creation of shared added value for all stakeholders. Sofidel’s greenhouse gas (GHG) emissions reduction targets to 2030 have been approved by the Science Based Targets initiative (SBTi) as consistent with reductions required to keep warming to well-below 2°C, in line with the goals of the Paris Agreement.
