

FULL  **TECH**

THE PAPER WITH NO WASTE.

No core rolls
up to 150m performance.

INFINITE CONVENIENCE

Papernet's continuous attention to improving quality of life translates into the range of **Full Tech** products, which **optimize transport**, storage and refilling, reduces overall costs without sacrificing the **quality, quantity** or **performance** of the product.

FULL TECH IS UNIQUE

Full Tech toilet rolls are produced coreless as a solid roll: a Full Tech toilet paper pack with a small footprint can replace up to **40 rolls** of conventional toilet paper.

The Full Tech dispensing system, with double dispensing, allows to have **300 meters of tissue** in a dispenser of just 16x15x33 cm.

The new **Full Tech Monoroll** dispenser is suitable for both rolls and interleaved dispensing.

FULL TECH IS BETTER

Full Tech rolls are wrapped in paper to reduce the impact of the product.

Full Tech toilet paper is made of **pure cellulose**, coming from certified or controlled sources.

All **Full Tech dispensers** are **antibacterial**.

FULL TECH MEANS SAVINGS

The large amount of paper in a small roll means lower costs.

The main benefit derives from the reduction of time to refill: the double Full Tech dispenser can replace up to 20 rolls of conventional toilet paper.

Considering that the replacement of a roll takes about 2 minutes, (including transport times from the warehouse to the washroom), **reloading the rolls of Full Tech toilet paper saves over 30 minutes, therefore reducing cost.**
