SUSTAINABLE TISSUE PAPER

CARE FOR PEOPLE AND THE ENVIRONMENT
IN EVERY SINGLE SHEET OF PAPER WE MAKE

Over 50 years of growth

Sofidel is the second largest group in Europe and the world's fifth largest manufacturer of tissue paper for hygienic and domestic use. With more than half a century of history and experience, Sofidel has more energy and strength than ever to grow every year. The Group companies, present in Europe and the United States, continually strive for the integration of sustainability and innovation in their everyday operations.

The guiding principle

The "Less is More" principle perfectly summarises the approach to work done by Sofidel: persevering to create added value; maximising and optimising efficiency, whilst reducing any negative impact to a minimum and dedicating the utmost attention to the needs and requirements of stakeholders.

LESS IS MORE

1987

Regina comes to the market, with the new products **Asciugoni** and **Rotoloni**

Mr Emi Stefani and Mr Giuseppe Lazzareschi start their first commercial activity

1966

2000

The Group founds a new company in Poland, **Delitissue**

1988

Sofidel is the new Group holding company

2007

Sofidel acquires **Werra Group**, in Germany

2003-2006

Sofidel founds new companies in GB, Spain, Germany and Turkey

2011

Papernet Sustainable Hygiene Brand is created.

2008

Sofidel joined the **WWF Climate Savers** program

2013

Sofidel achieves the goal of the **WWF Climate Savers** program, with **-11% of CO2 emissions**

2012

Sofidel America is founded

2015

The Group realizes the first greenfield investment in **Ohio** and opens a new office in **Philadelphia**

2014

Sofidel introduces the concept of **"Less is More"**

2016

All the consumer tissue products produced by Sofidel in Italy, GB, Spain, France and Benelux will come from **FSC** certified forests. The Group purchases the **100% of certified cellulose** supplied by independent third parties with forest certification schemes

2018

Sofidel announces a new **greenfield investment** in Oklahoma. The Group inaugurates its largest, modern and sustainable plant in **Circleville, Ohio**

2019

The Group undertakes to **reduce the use of conventional plastic in its production by 50%** by the year 2030

2020

Sofidel obtains approval from the **Science Based Targets initiative (SBTi)** relating to its greenhouse gas emission (GHG) reduction targets in line with levels required to achieve the objectives of the Paris Agreement. It is fully operational in **Inola**, in Oklahoma, the second integrated plant of the Group built from scratch in the United States. Sofidel America is awarded **FSC® (Forest Stewardship Council) recognition with the Leadership Award 2020**

Quality at the centre

Sofidel's logistics strategy is one of the main factors of the quality and sustainability of all its products. Each of the Group companies, together with its plants, is located within a specific area of activity, close to the customers. This makes it possible to optimize transport and therefore CO2 emissions. The headquarters, the strategic heart of the Sofidel Group, is located in the province of Lucca, Tuscany.

Good actions bring great results

Protocols based on the highest international standards make Sofidel a safe environment, creating ideal conditions for continuous improvement of all efficiency and quality parameters. The same culture of responsibility and respect for people that leads Sofidel to implement, in every plant, strict hygiene-health self-monitoring procedures.

SUSTAINABILITY

BUILDING AN INCLUSIVE AND SUSTAINABLE FUTURE. A COMMON GOAL.

Sofidel has identified the WWF as a first-level, reliable partner thanks to its history, international profile and widely acknowledged prestige. Contact with the environmental organisation was first made in 2007. The Group has been working alongside WWF for over ten years. In these years of partnership, both in Italy and internationally, the environmental organisation has supported the Group in developing an organic and systematic approach, contributing to the creation of an open, positive and responsible vision of the future.

The United Nations (UN) Global Compact is one of the most important sustainability initiatives in the world, which the Sofidel Group has joined as a “Participating Member”. Membership requires companies to embrace, support and implement, in their strategy and within their sphere of influence, a set of core values identified by the so-called Ten Principles on human rights, labour, environment and anti-corruption standards. Moreover, Sofidel is a “Promoting Founder” member of the Global Compact Network Italy Foundation (GCNI Foundation).

HYGIENE INNOVATION SUSTAINABILITY

The strength of hygiene

Paper towels, helping to reduce the risk of bacterial transmission, are the most effective hygiene tool*. Washing and drying your hands properly is a small daily gesture, but it represents a great contribution to health and therefore to life. For this reason, Papernet, the Sofidel Group brand in the Away-From-Home sector, promotes the culture of hygiene, with the idea that it is the foundation of a higher quality life.

Beyond performance

Papernet creates innovative products which provide true consumer benefits. A wide range of products that stand out on the market not only for its high hygienic effectiveness. The Away-From-Home assortment is sustainable from procurement to production and end use. This is particularly the case with our Tech Lines, Papernet's high value-added products. Besides being made with superior quality paper, thanks to their technology they solve specific problems such as cloggings, sediments in pipes, bad smells etc.

All-round sustainability

The entire Papernet range is based on the principle of economic, social and environmental sustainability. This is the only way, in the long term, that grants the achievement of the goals of all the entities directly and indirectly involved in the company's business activities. Papernet has always operated with responsible business ethics and management, based on learning and continual improvement of its processes. This approach enables Papernet to be a model in its sector.

* As indicated by the World Health Organisation and a study conducted by the Research Team at the University of Westminster.

Ideal for satisfying every need, Papernet Tech Lines are the best solution to ensure high performances in terms of hygiene, cleaning and absorption, whilst optimizing cost in use.

TECH LINES

THE RAPID DISSOLVING TISSUE.

Reduces the cost of clogging.

Every year over 50% of companies experience issues associated with blockages in their waste water systems. Recent research has shown that the cost of tackling these issues in Europe exceeds 1 billion Euro. **Papernet solves these problems thanks to a technology in a range of products with excellent performance and rapid break down on contact with agitation and water.**

DISSOLVE TECH IS SUPERIOR

Comparison of Dissolve Tech and other types of towels thrown in the toilet

The graph illustrates the relationship between wet resistance and pulp flushing duration, comparing Dissolve Tech to other products that belong to same product family.

Dissolve Tech towels have a strong absorbent capacity but, in contact with the water, they dissolve in less than three minutes.

For details and scientific insights see the website www.papernet.com

THE ACTIVE TOILET PAPER.
Naturally conbacts bacteria while cleaning pipes.

Papernet pays constant attention to improving the quality of life. This is why we created **Bio Tech**, an exclusive range of products made with paper capable of fighting naturally pathogenic bacteria thanks to Biologically Active Tissue Paper Technology (BATP). The **Bio Tech** range aids in the cleaning of internal pipework, sewerage and downstream wastewater systems.

RESPECTS THE ENVIRONMENT

FRESHENS YOUR BATHROOM

MOLECULES CAPTURE ODOR

REDUCES COST IN USE

THE PAPER THAT CAPTURES ODORS.

Stop bad smells shifting their molecular structure.

From continuous research by Papernet is born **Freshen Tech** a line of toilet papers that guarantee a constant sensation of **freshness** and **cleanliness**.

Freshen Tech, thanks to its exclusive formulation, **modifies the molecular structure of foul odours** and neutralizes them.

Freshen Tech guarantees a continuous feeling of hygiene even in the most challenging washroom environments.

FRESHEN TECH IS UNIQUE.

FRESHEN TECH MEANS SAVING.

The technology used for the formulation of **Freshen Tech** toilet rolls makes these products **unique**. The anti-odour, allergen-free molecules are sprayed directly into the cardboard core of the roll, meaning the core itself becomes an air freshening system. **As the roll is utilised, the effect remains the same**. A constant sensation of freshness, which is renewed with each refill.

In washrooms with limited ventilation it is difficult to guarantee the sensation of cleanliness and hygiene. The use of **Freshen Tech toilet paper eliminates the need to use other products such as air freshener aerosols** or automatic dispensing systems. By using Freshen Tech toilet tissue it is possible to **reduce cost in use** and enhance your washroom experience.

THE PAPER WITH NO WASTE.

No core rolls up to 150m performance.

Papernet's continuous attention to improving quality of life translates into the range of **Full Tech** products, which **optimize transport, storage and refilling**, reduces overall costs without sacrificing the **quality, quantity or performance** of the product. **Full Tech toilet paper** is made of **pure cellulose**, coming from certified or controlled sources. All **Full Tech dispensers** are **antibacterial**.

**FULL TECH
IS UNIQUE.**

**FULL TECH
MEANS SAVING.**

Full Tech toilet rolls are produced coreless as a solid roll: a Full Tech toilet paper pack with a small footprint can replace up to **40 rolls** of conventional toilet paper.

The Full Tech dispensing system, with double dispensing, allows to have **300 meters of tissue** in a dispenser of just 16x15x33 cm. The new **Full Tech Monoroll** dispenser is suitable for both rolls and interleaved dispensing.

The large amount of paper in a small roll means lower costs. **The main benefit derives from the reduction of time to refill:** the double Full Tech dispenser can replace up to 20 rolls of conventional toilet paper. Considering that the replacement of a roll takes about 2 minutes, (including transport times from the warehouse to the washroom), **reloading the rolls of Full Tech toilet paper saves over 30 minutes, therefore reducing cost.**

**SUPER
ABSORBENT**

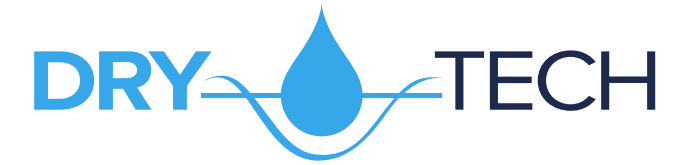

**RESISTANT
WITH HIGH
PERFORMANCE**

**CLEANS
THOROUGHLY**

**REDUCES
COST IN USE**

THE TISSUE FOR HARD TIMES.

The perfect combo
between strength
and absorbency.

Thanks to an innovative production process, **Dry Tech** products offer up to **100% more absorption, capacity and resistance**, compared to traditional paper.

These characteristics ensure end users use less paper which significantly reduces consumption and cost.

Dry Tech products are **the perfect product range for all customers requiring high levels of quality.**

RESPECTS THE ENVIRONMENT

REMOVES GERMS AND BACTERIA

MORE HYGIENE ON THE SURFACES

MORE PROTECTION FOR PEOPLE

DEFEND TECH

PLUS HYGIENE AND SAFETY.

Active protection against germs and bacteria.

The Defend Tech product range is the result of Papernet's continuous research and innovation. A virtuous circle of advanced protection, formed of the best technologies, to further raise paper products, dispensers, soaps and antibacterial gels' hygiene standards.

The Defend Tech line offers a high level of prevention and protection from the most dangerous bacteria; both for the sanitation and cleaning of environments and for daily personal habits.

Scientific Reference Sources

The **World Health Organization** and the prestigious **University of Westminster** recommend the use of paper hand towels, given the substantial reduction of bacteria on hands.

UNIVERSITY OF WESTMINSTER

Papernet Products Certifications

Bio Tech, in 2012, received the **Chelab BATP certification** as dermatologically tested product. **Chelab Silliker**, part of the Mérieux NutriSciences Corporation, boasts a proven expertise in analytical services in chemistry, microbiology and biology with a high technical/scientific specialization. In 2015 Bio Tech received certification by the prestigious **SGS Institut Fresenius**, Taunusstein (Germany) regarding the beneficial enzyme activity of BATP spores. SGS is the world's leading inspection, verification, testing and certification company in Germany.

The jury of the **2015 edition** of the **PPI Awards** has selected Papernet **Bio Tech**, the biologically active toilet paper, as **“Innovative Product of the Year”**. The 2015 PPI Awards is the only global honor dedicated to recognizing the achievements of companies for leadership, vision, innovation and strategic accomplishments within the pulp and paper sector.

Papernet Products Certifications

The **Centre Technique du Papier in Grenoble**, in September 2014, proved the dissolvability of **Dissolve Tech** paper after 3 minutes of contact with water. The Centre Technique du Papier in Grenoble is an industrial research and development organization that provides scientific support to the paper industry.

Dissolve Tech is the 2016 Sanitary Maintenance Distributor Choice Award Winner. The Distributor Choice Award program recognizes the most innovative and useful sanitary supply products of the year, as determined by distributors active in the sanitary supply marketplace, including janitorial, paper, food service, industrial and wholesale.

The jury of the **2019 edition** of the **PPI Awards** has selected Papernet **Freshen Tech** as **“Innovative Product of the Year”**, thanks to its technology that eliminates washroom odours. The 2019 PPI Awards is the only global honor dedicated to recognizing the achievements of companies for leadership, vision, innovation and strategic accomplishments within the pulp and paper sector.

CERTIFICATION BODIES

OF OUR PRODUCTS

Ecolabel is the voluntary Type III ecological label recognised on a European level. It is a stylised daisy with the “E” of Europe at its centre, surrounded by stars representing the Member States. It was created by the European Commission in 1992 as a quality label awarded to product and service categories respecting precise ecological criteria. In particular, it indicates that the product guarantees a reduced environmental impact at every phase of its life cycle. For every product, the environmental aspects connected to its production are taken into consideration: the quality of the air, the water and the soil, waste production, resource and energy consumption, noise pollution, protection of the biodiversity. According to the principle of shared environmental management, the new Ecolabel Regulation 2010 establishes that the criteria adopted by the Commission are proposed by an Ecological Label Committee (CUEME) that sees the participation of all interested parties: Industry and SMEs, Consumer Associations, Environmental Associations. And the attention placed on the entire life cycle allows reducing the overall environmental impact, preventing the mere transfer of impacts from one phase to another. Through the Ecolabel, the consumer has access to reliable and scientifically based information on the products’ environmental impact. Additionally, Ecolabel products guarantee effective product quality.

<https://ec.europa.eu/environment/ecolabel/>

Blue Angel products meet a list of criteria considering environmental and health-related aspects. The purchase of a Blue Angel-labelled product is a guarantee of good products with less environmental impact and greater health protection than many other products serving the same purpose. The main criteria for Tissue Paper is that the raw materials is made by 100% recovered paper (Recycled); in fact, Blue Angel suggests that a paper product made from 100% recycled paper saves the entire raw material required for virgin fibre paper production. Such action does not only contribute to a reduction of the volume of waste but also helps to conserve wood resources.

www.blauer-engel.de

It is the certification system for forests, wood and derived products that ensures that the products come from forests managed pursuant to strict environmental, social and economic standards. The Forest Stewardship Council is the non-profit organization born in Mexico in 1994 and transferred to Bonn in 2003 that issues the certification necessary in order to be able to use the label on the basis of audits performed on the forests where the wood is extracted and in the course of all subsequent production phases, down to the consumer, and that concern environmental and social-ethical aspects. It is a label similar to Type I for the existence of a third certification body. The FSC forest management principles can be summarized in ten points:

Principle #1: Compliance with laws

The Organization shall comply with all applicable laws, regulations and nationally-ratified international treaties, conventions and agreements.

Principle #2: Workers' rights and employment conditions

The Organization shall maintain or enhance the social and economic well-being of workers.

Principle #3: Indigenous peoples' rights

The Organization shall identify and uphold indigenous peoples' legal and customary rights of ownership, use and management of land, territories and resources affected by management activities.

Principle #4: Community relations

The Organization shall contribute to maintaining or enhancing the social and economic well-being of local communities.

Principle #5: Benefits from the forest

The Organization shall efficiently manage the range of multiple products and services of the Management Unit to maintain or enhance long term economic viability and the range of environmental and social benefits.

Principle #6: Environmental values and impact

The Organization shall maintain, conserve and/or restore ecosystem services and environmental values of the Management Unit, and shall avoid, repair or mitigate negative environmental impacts.

Principle #7: Management planning

The Organization shall have a management plan consistent with its policies and objectives and proportionate to scale, intensity and risks of its management activities.

The management plan shall be implemented and kept up to date based on monitoring information in order to promote adaptive management.

The associated planning and procedural documentation shall be sufficient to guide staff, inform affected stakeholders and interested stakeholders and to justify management decisions.

Principle #8: Monitoring and assessment

The Organization shall demonstrate that progress towards achieving the management objectives, the impacts of management activities and the condition of the Management Unit, are monitored and evaluated proportionate to the scale, intensity and risk of management activities, in order to implement adaptive management.

Principle #9: High conservation values

The Organization shall maintain and/or enhance the high conservation values in the Management Unit through applying the precautionary approach.

Principle #10: Implementation of management activities

Management activities conducted by or for the Organization for the Management Unit shall be selected and implemented consistent with the Organization's economic, environmental and social policies and objectives, and in compliance with the Principles and Criteria collectively.

PAPERNET IS A BRAND OF THE SOFIDEL GROUP

The Sofidel Group is one of the leading manufacturers of paper for hygienic and domestic use worldwide. Established in 1966, the Group has subsidiaries in 12 countries - Italy, Spain, the UK, France, Belgium, Germany, Sweden, Poland, Hungary, Greece, Romania and the USA - with more than 6,000 employees, net sales of 2,173 million Euros (2020) and a production capacity of over one million tonnes per year (1,428,000 tonnes in 2020) "Regina", its most well-known brand, is present on almost all the reference markets. Other brands include: Softis, Le Trèfle, Sopalin, Thirst Pockets, KittenSoft, Nalys, Cosynel, Lycke, Nicky, Papernet. A member of the UN Global Compact and the international WWF Climate Savers programme, the Sofidel Group considers sustainability a strategic factor with regards to growth and is committed to reducing its impact on natural capital and maximising social benefits, setting as objective the creation of shared added value for all stakeholders. Sofidel's greenhouse gas (GHG) emissions reduction targets to 2030 have been approved by the Science Based Targets initiative (SBTi) as consistent with reductions required to keep warming to well-below 2°C, in line with the goals of the Paris Agreement.
