A CENTRAL TOPIC  
IN THE CREATION  
OF SHARED VALUE**

Hygiene is a primary asset that helps protect our health and the overall quality of our lives. Let's defend it together with conscious behaviours and choices.

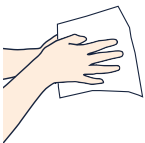

# BE SMART HEALTHY BUSINESS

**1**

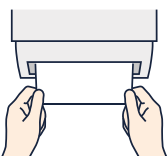

Hands are the main means of contact with the world and their proper hygiene is essential\*. Providing guests and operators with the right products, in the most sensitive areas, is an effective way to ensure maximum safety at every stage.

**2**

As demonstrated and supported by numerous studies and authoritative sources\*\*\*, paper towels are the best solution to reduce the proliferation of germs and bacteria on the hands and avoid their dispersion in the surrounding environment\*\*.

**3**

Papernet Antibacterial Towel Dispensers ensure the highest level of hygiene in the hand drying process, helping to significantly reduce bacteria in the environment.

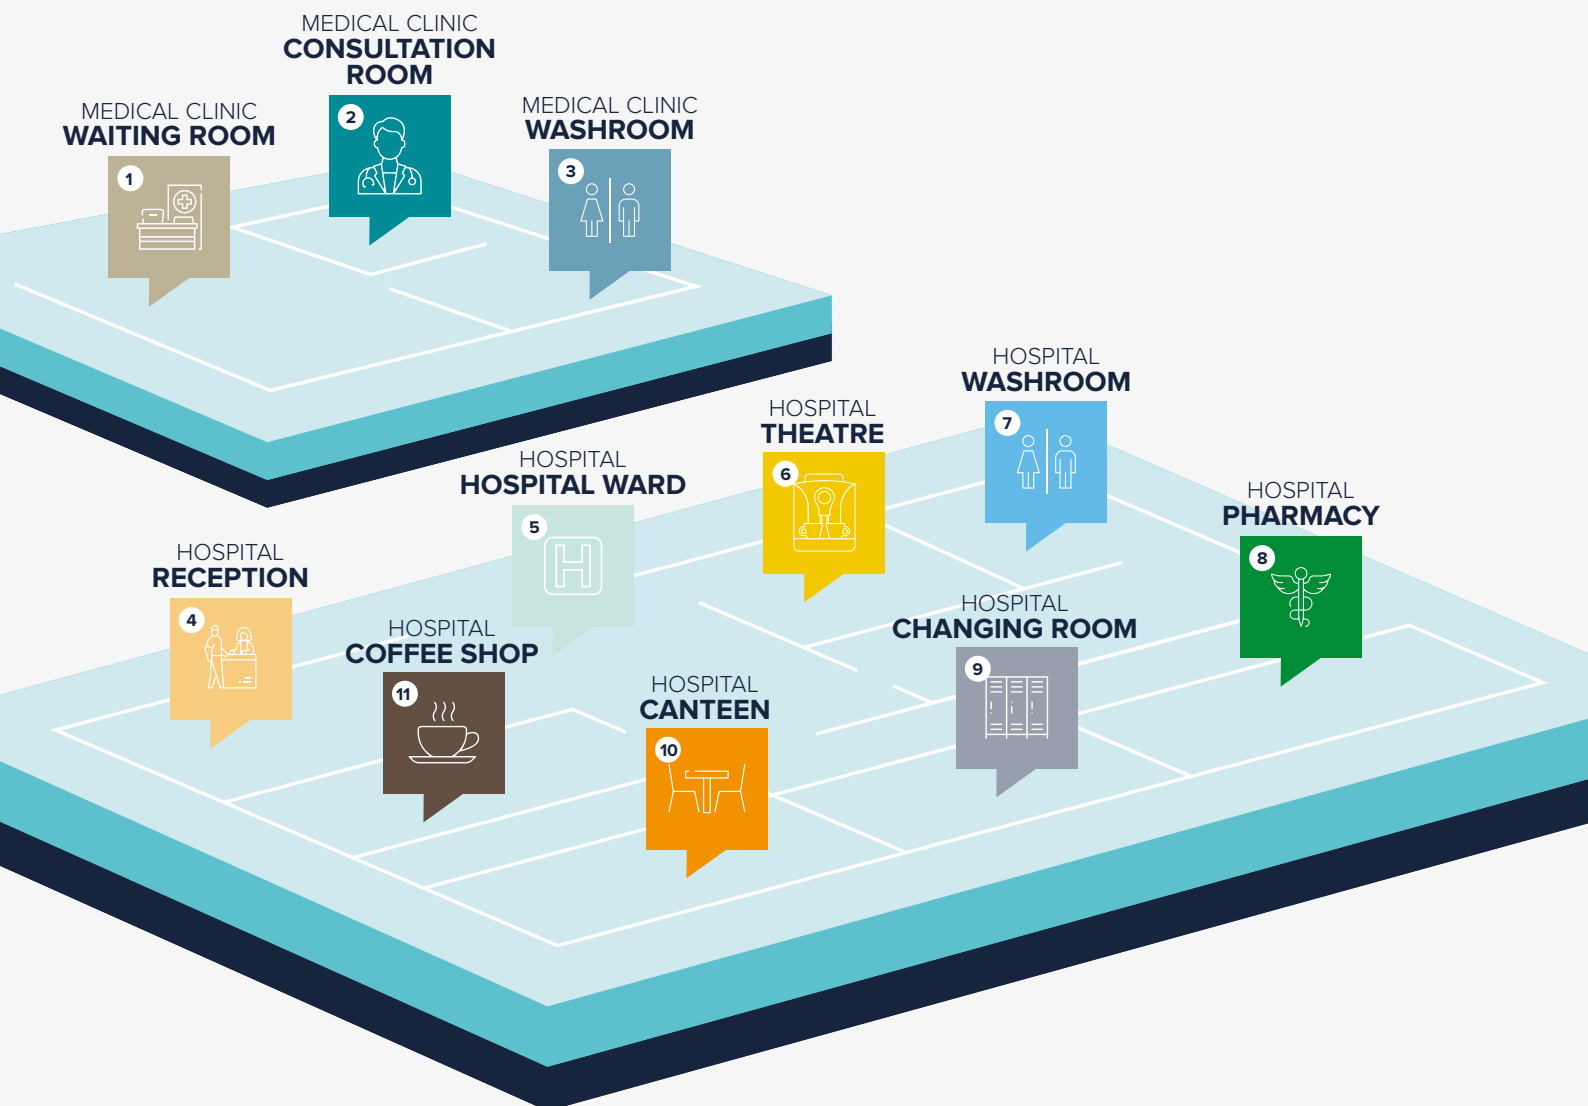

\* The WHO claims that by just **washing our hands frequently with soap and water for about 30-40 seconds** can protect us from the thousands of germs and bacteria in the environment.
