# READY, AS ALWAYS, TO DO OUR PART.

# Papernet is sustainable hygiene.

With this special **tool**,

recommendations and solutions manual, Papernet provides a valid support to make every working environment even more hygienic and clean.

HYGIENE, A CENTRAL TOPIC IN THE CREATION OF SHARED VALUE Hygiene is a primary asset that helps protect our health and the overall quality of our lives. Let's defend it together with conscious behaviours and choices.

# SMARTHY BUSINESS

Hands are the main means of contact with the world and their proper hygiene is essential\*. Providing guests and operators with the right products, in the most sensitive areas, is an effective way to ensure maximum safety at every stage.

As demonstrated and supported by numerous studies and authoritative sources\*\*\*, paper towels are the best solution to reduce the proliferation of germs and bacteria on the hands and avoid their dispersion in the surrounding environment\*\*.

Papernet Antibacterial Towel Dispensers ensure the highest level of hygiene in the hand drying process, helping to significantly reduce bacteria in the environment.

<sup>\*</sup> The WHO claims that by just washing our hands frequently with soap and water for about 30-40 seconds can protect us from the thousands of germs and bacteria in the environment.
