HYGIENE BEST PRACTICES

“

A real Customer Journey that will help professionals in the Industry to guarantee the best quality standards in terms of hygiene and increase the value of services within their organizations.

READY AS ALWAYS TO DO OUR PART.

Papernet is sustainable hygiene. With this **recommendations and solutions manual**, Papernet provides a valid support **to make every working environment even more hygienic.**

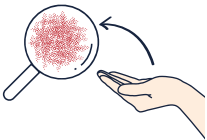

**HYGIENE,
A CENTRAL TOPIC
IN THE CREATION
OF SHARED VALUES**

Hygiene is a primary asset that helps protect our health and the overall quality of our lives. Let's defend it together with conscious behaviours and choices.

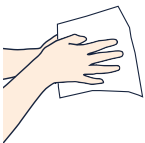

BE SMART HEALTHY BUSINESS

1

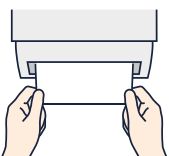

Hands are the main means of contact with the world and their proper hygiene is essential*. Providing guests and operators with the right products, in the most sensitive areas, is an effective way to ensure maximum safety at every stage.

2

As demonstrated and supported by numerous studies and authoritative sources***, paper towels are the best solution to reduce the proliferation of germs and bacteria on the hands and avoid their dispersion in the surrounding environment**.

3

Papernet Antibacterial Towel Dispensers ensure the highest level of hygiene in the hand drying process, helping to significantly reduce bacteria in the environment.

* The WHO claims that by just **washing our hands frequently with soap and water for about 30-40 seconds** can protect us from the thousands of germs and bacteria in the environment.

HYGIENE A STRATEGIC VALUE

Hygiene is a priority in the Industry. Health regulations require companies to adhere to strict standards of cleanliness in all work areas. For this reason, Papernet is committed to offering suitable solutions to raise the level of hygiene and safety in all environments, providing, in the scheme below, a valid guide for the protection of hygiene in different locations.
